

Precision protective packaging with zero administrative overhead and massive cost savings

No matter how complex your needs, how delicate the product, or how tight your deadline, we take the entire burden and hassle of protective packaging off your hands — saving you time, money and hassle.

We'll couple our production line to yours so that custom packaging arrives exactly when you need it for perfectly synchronized just-in-time packaging.

We take even complex projects from design and prototype to finished precision packaging that's in the warehouse in as little as three days.

And we engineer our protective packaging to ensure your cargo will safely endure the toughest trans-shipment with zero damage. We guarantee it.

- ✓ Eradicate packaging waste
- ✓ Eliminate the risk of late shipments
- ✓ Save big dollars on shipping and packaging admin

How to get to just-in-time packaging for greater savings in just three steps

More value than just fast packaging. We save you money too.

Estimated annual savings based on a typical use case

Free Packaging Design and Engineering Support

We design, prototype and test the packaging system using the optimal materials and fabrication methods so your engineers don't have to.

Packaging Protection Performance

\$40 billion of products shipped; zero damage. Less than 0.001% in-transit damage probability with our packaging.

Warehouse Space Savings

Just-in-time delivery reduces the volume of packaging inventory you need to hold.

More Efficient Shipping

Custom packaging designs that allow reduced packing, loading and unloading times for simplified handling.

Packaging Admin Savings

The tight coupling of our packaging team with your production line eliminates the need for up to 3 full-time packaging admins.

Shipment Delivery Performance

Eliminate missed shipment penalties due to custom packaging failing to arrive on-site on-time.

Packaging Inventory Reductions

No need to carry the cost of packaging inventory. Custom packaging arrives as needed according to the production schedule.
