

HARD CASES

The right hard case for optimal in-transit protection against shock and vibration

We are one of the USA's few full technical dealers for Pelican-Hardigg cases and an authorized technical dealer of SKB Cases. We also stock a wide range of hard case options from Shell-Case™.

We have the capabilities to customize any industrial SKB, Pelican-Hardigg, or Shell-Case case, including rackmount models, for military, medical and entertainment purposes.

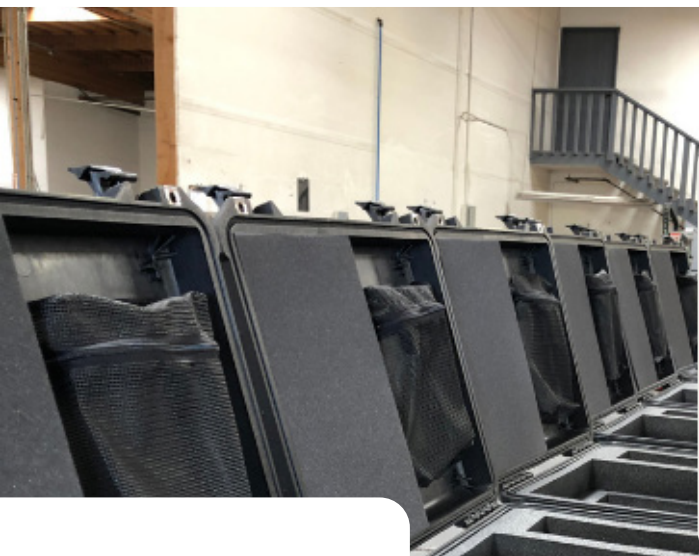

We can provide product-agnostic advice on the best dust-resistant and watertight options to protect delicate and expensive equipment and instruments that need to be routinely transported and stored.

And, as a specialist protective packaging manufacturer we can offer customized cushioning, inserts and assemblies made from the ideal material to keep sensitive equipment safe from shock, impact and vibration.

✓ Full Pelican-Hardigg technical dealer

✓ Official authorized SKB Cases technical dealer

✓ Shell-Case™ stockist

Molded case custom foam insert experts

We can design a foam cushion insert to isolate and protect your individual parts or sub-assemblies as well as improve access to equipment through better organization. We can build precise foam assemblies either from your own designs and CAD files, or we can create a prototype for you to

review, then develop it from prototype to final production.

We regularly work with foams that will protect class A surfaces from shock and protection.

Rapid prototyping, complex assemblies, die-cuts, contour-cuts, CNC-routing, and waterjet-cut foam.

Hard cases are ideal to protect

- > Delicate spares or FRUs (field replaceable units)
- > Portable field communications gear
- > Data networking equipment
- > Measurement, testing and calibration equipment
- > Musical instruments
