

LARSON
PACKAGING
COMPANY

Smart. Packaging. Fast.

Enjoy faster turnaround times,
simplified packaging admin, and
a frictionless vendor experience

Larson Packaging Company offers a complete custom packaging solution from concept and prototyping to manufacturing and delivery to your warehouse. No middlemen, no outsourcing, and no excuses as the buck stops with us.

This means we can solve real (and costly) protective packaging problems for high-value, fragile and sensitive industrial equipment that others cannot—or will not. And we can deliver packaging projects in a matter of days when it takes other weeks.

We have decades of experience working with leading California-based organizations across many industries.

- Aerospace, UAV/Drones & Space
- Cloud & Data Center Infrastructure
- Electronics & Communications
- Laser & Optics
- Medical Devices & Life Sciences
- Military, Defense & Munitions
- Ocean Science & Marine
- Robotics & Autonomous Vehicles

Three reasons Larson Packaging Company is the natural choice for your custom packaging

We will ship your packaging on the promised date or pay a penalty for every day we are late.

Quotes returned in 24 hours (many the same day).

87 Net Promoter Score from our customers.

Capabilities

We offer a full line of products designed and manufactured all under one roof. Crates, Pallets, ATA and Molded cases, both Plastic and Fiberboard corrugated boxes, all with custom designed foam sets, and (or) inserts proudly fabricated in the US. We use a number of different high-quality foams. With Polyethylene, supplied by our strategic partner Sealed Air for Ethafoam, Synergy plank and Stratocell laminates. We use high-quality Cross-linked PE in several densities and impact resistant Arplank beaded polyethylene and polypropylene. We also use Polyurethane foam, and various Antistatic or ESD varieties of all types.

We carry a large raw materials inventory in our twin modern, high-capacity production plants with state-of-the-art capabilities, precision equipment, technology and skilled people for shorter lead times quality you can count on and repeatability.

Our protective packaging specialties

Foam sets & inserts

We identify the foam that will perform best, and design, waterjet, CNC or die-cut, and assemble it for optimal in-transit protection with minimum expense.

On-demand box and foam

On-demand custom-designed corrugated, plastic or fiberboard boxes. We do runs under 500 units and are especially cost effective.

Hybrid packaging

A combo, foam-and-wood corrugated pack able to transport heavier items but at a reduced weight and manufacturing cost.

Crates

Custom-designed to mil-spec & ASTM standards for highly specialized material handling, loading & unloading, blocking and bracing, and shock and vibration protection requirements.

Cases

ATA, Pelican and SKB hard cases to protect delicate equipment that will be routinely transported, stored or used in the field.

Pallets

Customized Stringer and Block pallets for your specific unit load size, handling environment, and shipping requirements. Any size, any quantity.

No matter how complex your needs, how delicate the product, or how tight your deadline, we take the entire burden and hassle of protective packaging off your hands — saving you time, money and hassle.

We guarantee it!
