

Mission-Enabling Protective Packaging Solutions for High-Value and Sensitive Equipment

Larson Packaging Company knows the defense, aerospace, and government marketplace. We are a custom packaging manufacturer that specializes in shock and vibration protective packaging solutions for high-value, fragile and sensitive military, industrial and technical equipment. We have decades of experience working with leading California based organizations that serve aerospace, defence, and government.

The combination of our smart design solutions and flexible, on-demand manufacturing resources, and our thorough understanding of the federal procurement and contracting process, allows us to implement the best possible packaging solution for your agency while reducing risk and lowering costs.

Capabilities

- Full line of products designed and manufactured/converted all under one roof—crates, pallets, ATA and molded cases, corrugated and plastic boxes, all with custom foams including Ethafoam Polyethylene, Polyurethane, Polypropylene, Anti-static and Cross-linked foam.
- Technical Packaging Dealer for Pelican-Hardigg and SKB case solutions.
- Case customization options: routings, wheels and casters, handles, hardware, colors, heat-treated and reusable.
- Large inventory of raw materials, stock, and manufacturing inhouse = short lead times.
- Professional experienced packaging engineers working in Solidworks and as partners with customers' engineering teams and program managers

Coherence

- We do custom packaging for high-value, fragile and sensitive military, aerospace, electronic, industrial and technical equipment: nothing else.
- We are experts at government paperwork and processing—and certified—so you don't need to worry about having an issue and you can focus on your project.
- Our quality, timeliness and speed are industry-leading, so you can count on us.
- We have a broad range of capabilities supported by high tech, precise equipment, technology and people all under one roof so you can bring any project to us, and we can do it well and repeatedly.
