

LARSON  
PACKAGING  
COMPANY

# Smart. Packaging. Fast.

> Custom-designed precision protective packaging.

> Designed, manufactured and managed so you get it exactly when you need it.

# We are the Pelican & SKB case experts

## Core technical dealer of Pelican-Hardigg Advanced Case Solutions

(we are one of only a few)

- > Global leader
- > Dust-free and watertight
- > Lifetime guarantee
- > Popular with law enforcement and emergency services

## Official authorized dealer of SKB Mil-Standard cases

- > Leading molded polymer transport cases since 1977
- > Built to meet or exceed military specs for ingress and vibration, shock, impact protection
- > Popular with the military and aerospace
- > Lifetime guarantee

# The ultimate protection against shock and vibration

## Transportability

High strength polypropylene copolymer resin that's 3X stronger than alternative hard cases.

## Usability

Isolate and protect individual parts or sub-assemblies for improved organization and usability.

## Reusability

Field replaceable components include knuckle-friendly trigger latches, one-touch pull handles and molded-in hinges.

## Precise effective protection

Dust free and watertight to a depth of 3.3 feet for 30 minutes. Can even protect Class A surfaces from shock and vibration.

## Storability

Cases and foam won't degrade over time.

## Popular applications for custom foam molded cases include:

1

Fleet of returnable cases for sensitive spares or FRUs (field replaceable units)

---

2

Robust, portable field communications, data networking, measurement, calibration and test.

# Our foam design and manufacturing capabilities

- ✓ Experienced, professional **design team** for rapid prototyping and packaging solutions that perform
- ✓ All LPC foam products **designed and manufactured all under one roof** at our Milpitas & San Diego, California facilities
- ✓ We use **precision, leading-edge CNC equipment** and flexible, high velocity manufacturing capabilities for precision assembly
- ✓ **In stock inventory of the most popular types of foam** for optimal shock and vibration protection & rapid turnaround

## Smart

- Experienced, professional design team engineering products that perform
- Easy to use, load and unload
- Reusable packaging where appropriate
- Enlightened management and customer success team

## Packaging

- Design and manufacture custom shock and vibration protective packaging—with precision when required
- Full line of products manufactured all under the one roof—crates, cases, foam, corrugated
- Business coherence—we do packaging: nothing else

## Fast

- Industry leading lead times
- Fast prototypes and samples
- Flexible, high velocity production capable of miracles
- On time, every time
