

Discover precision protective packaging that makes in-transit damage 100 times less likely

We're a team of packaging experts, specializing in custom reusable and one-off protective solutions used to ship high-value, fragile and sensitive electronic, medical, aerospace, military and technical equipment.

We engineer packaging to endure the toughest transits – using precisely chosen

substrates that are fabricated to exacting tolerances – so your products reach their destination in perfect condition and work.

And we have the capabilities and resources to expedite projects in a matter of days, when it would take others weeks.

✓ Precision-engineered packaging

✓ Short production lead times

✓ <0.001% in-transit damage probability

Our protective packaging solutions have seen more than \$40 billion of sensitive medical, electronic, technical and military equipment shipped with zero damage.

Crates, Shock Mount Bases, Skids

Fabricated Foam

Customized Moulded Cases - Pelican, Hardigg, SKB

Corrugated Fiberboard and Plastic Box + Foam

ATA Cases

Pallets and other wood products

In-transit savings are just the beginning. Our turn-key Synchronicity program helps our clients to save hundreds of thousands of dollars each year in custom packaging solutions. Ask us how.

Free Packaging Design and Engineering Support

We design, prototype and test the packaging system using the optimal materials and fabrication methods so your engineers don't have to.

Packaging Protection Performance

\$40 billion of products shipped; zero damage. Less than 0.001% in-transit damage probability with our packaging.

Warehouse Space Savings

Just-in-time delivery reduces the volume of packaging inventory you need to hold.

More Efficient Shipping

Custom packaging designs that allow reduced packing, loading and unloading times for simplified handling.

ESTIMATED **\$635,000** TOTAL SAVINGS DELIVERED BY Synchronicity

Packaging Admin Savings

The tight coupling of our packaging team with your production line eliminates the need for up to 3 full-time packaging admins.

Shipment Delivery Performance

Eliminate missed shipment penalties due to custom packaging failing to arrive on-site on-time.

Packaging Inventory Reductions

No need to carry the cost of packaging inventory. Custom packaging arrives as needed according to the production schedule.
